

Bharat Forge

Division:

Site Development

Location:

Sanford, NC

Client:

Bharat Forge
City of Sanford

Service Period:

2019 - 2021

Services Provided:

- Design
- Permitting
- Clearing
- Erosion control
- Earthwork
- Storm drain
- Water, sewer
- Curb & gutter
- Base, paving

Project Size:

25 Acres

Turn-Key Site Package Delivered to Bharat Forge Project in Sanford

Sanford Contractors provided a turn-key site package for two combined projects at Bharat Forge. The design-build portion of the project included the entrance road to the future Bharat Forge Plant facility, located in Sanford, NC. The scope included the design and permitting for the roadway, clearing, grading, utilities, storm drain, and paving.

Withers & Ravenel worked alongside the City of Sanford to develop the access road and pad-ready site during the design-build phase. Grey Construction, the general contractor for Bharat Forge, worked to deliver the final site package.

Throughout the process, Sanford Contractors solicited input from Bharat Forge to ensure they would have the necessary infrastructure to meet their needs related to types and volume of traffic, utilities, and ultimate size of the building and parking facilities.

Sanford Contractors was able to deliver a pad-ready site within the requested time frame for Bharat Forge to start construction on their facility. This site will provide the foundation for Bharat Forge to thrive in Sanford, furthering economic development in the area and North Carolina as a whole.

The project received a 2021 Engineering Excellence Award from the American Council of Engineering Companies (ACEC) of North Carolina. Sanford Contractors accepted this award alongside representatives from Withers Ravenel and the City of Sanford on Nov 11, 2021.
