Hotel Project Showcases Building Division's Craftsmanship

Sanford Contractors' Commercial Building Division was tasked with constructing a state-of-the-art hotel in Pittsboro, NC. The Hampton Inn & Suites Pittsboro spans 78,500 square feet and offers 120 well-appointed rooms along with excellent amenities.

Conveniently located in Mosaic at Chatham Park, this hotel is positioned to play a vital role in supporting ongoing growth and development within Chatham County.

In addition to managing vertical construction and overseeing subcontractors, the SCI team collaborated closely with BryantCorp and our design partners to create a modern hotel filled with thoughtful details that reflect the spirit of the Pittsboro community. Notably, the hotel features galleries showcasing custom pieces by local artists, adding a unique and personal touch to the space. These deliberate touches are among the key factors that led to The Hampton Inn & Suites Pittsboro being honored as the top project in the Hospitality/Entertainment category at the 2025 *Triangle Business Journal* SPACE Awards.

A Grand Opening event was held in November 2024, attracting a large crowd, including local business leaders, community members, representatives from the Chatham Chamber of Commerce, and the dedicated SCI project team who brought this award-winning vision to life.
