January 2017 - August  
2017

### **Services Provided:**

- Existing Structure Removal
- Clearing and Grubbing
- Earthwork and Storm Drainage
- Bridge Construction
- Curb, Base and Paving

### **Project Size:**

Two-Span Bridge  
Replacement

## **SCI Delivers Emergency Bridge Replacement Ahead of Schedule**

Sanford Contractors was enlisted by NCDOT to perform an emergency bridge replacement on Bingham Drive over Beaver Creek Tributary in Cumberland County after Hurricane Matthew completely washed away the existing culvert.

SCI teamed with Wetherill Engineering on this project. After meeting onsite to assess the site's condition, Wetherill began designing the plans while Sanford Contractors prepared to commence construction.

Sanford Contractors turned the completed two-span bridge over to NCDOT just a few months later, finishing the project ahead of schedule and exceeding client expectations.
